

APEC 2023 Announces First-Ever Student Job Fair

Special event will connect participating companies with highly qualified engineering students attending APEC who are soon to enter the job market.

Orlando, FL – November 18, 2022 – The [Applied Power Electronics Conference](#) (APEC) will conduct its first-ever Student Job Fair on Tuesday, March 21, 2023, from 2:00 p.m. to 4:00 p.m. at the Orange County Convention Center in Orlando. The goal is to connect participating companies with top-quality, talented students who are already attending the conference and exhibition.

The Student Job Fair will take place in a large conference room at APEC 2023. Each participating company will be provided with a table and two chairs, free wi-fi access, a tabletop sign with the company's logo and signage promoting the company's participation. For interested students, more information, including a list of participating companies, can be found on the [APEC website](#).

Companies — those exhibiting at APEC 2023 or not — wishing to participate in this event must [register](#) in advance. Exhibiting companies are offered discounts to participate in the Student Job Fair.

- Early Bird Registration – (until January 6, 2023)
 - APEC Conference Exhibitors - \$500
 - Non-Exhibiting Companies - \$750
- Late Registration (until February 3, 2023)
 - APEC Conference Exhibitors - \$1000
 - Non-Exhibiting Companies - \$1250

Company staff who conduct the Student Job Fair interviews also must be registered to attend APEC 2023. Job Fair companies should send hiring managers or technical recruiters who know the business inside and out.

“This is a great opportunity for employers to speak with students from all over the world who have an interest in power electronics as a career and who are already attending our world-class conference and exhibit,” said Alireza Safaei, APEC 2023 Student Job Fair organizer. “These motivated students will have questions about your current openings, company culture, and more, so take advantage of this opportunity!”

About the Applied Power Electronics Conference (APEC)

As *The Premier Event in Applied Power Electronics*™, APEC focuses on the practical and applied aspects of the power electronics business. This is not just a designer's conference. APEC has something of interest for anyone involved in power electronics:

- Equipment OEMs that use power supplies and dc-dc converters in their equipment
- Designers of power supplies, dc-dc converters, motor drives, uninterruptable power supplies, inverters and any other power electronic circuits, equipment and systems
- Manufacturers and suppliers of components and assemblies used in power electronics
- Manufacturing, quality and test engineers involved with power electronics equipment
- Marketing, sales and anyone involved in the business of power electronics
- Compliance engineers testing and qualifying power electronics equipment or equipment that uses power electronics
